## 2.2 Addressing layout for national letters, large letters, packets & parcels

The addressing layout for national letters, large letters, packets and parcels are as follows:

- Envelopes, packets and parcels should not have a pre-printed Whistl indicia
- The indicia zone must be kept clear for Whistl indicia spraying
- Return addresses must be provided for all items. Preferably with the return address pre-printed on the envelope, packet or parcel. If return addresses cannot be pre-printed, then the address details must be provided on the tray label
- The customer must ensure each mailing item is addressed to its recipient so the address is visible and legible at all times (handwriting must be neat)
- Parcels cannot be delivered to a PO Box address for security reasons as they are delivered by a 3rd party carrier
- A full postcode is required
- The address should be left justified, keeping the right hand side clear of any address details for code marking
- For machineable\* letters (DL and C5), the address should appear parallel to the longest edge
- For machineable large letters (C4), the address should appear parallel to the shortest edge
- Please refer to **Appendix A** for more information on the AllSort machineable letter envelope layout

\*Machineable items are items that are <100g & <5mm thick that will pass through the sortation machine. Non-machineable items are items that are oversized or polywrapped and don't pass through the sortation machine.

  - UK bound – packets
  - UK bound – parcels
  - International mail (see section 3.0)
  - BFPO (see section 4.0)
- Letters and Large Letters must be supplied in trays, unbranded facing the same direction

- Goods fulfilment items (Large Letters and Packets) can be presented loose in bags, magnums or alps.
- DL/C5 envelopes should be placed upright, standing on their long edge, C4 envelopes should be placed face down
- Trays should not be overfilled as it makes handling difficult and can cause envelopes to stick
- Items must be clearly labelled using the Whistl tray label for the applicable product

## 3.2 Addressing requirements

There are three basic rules:

1. Many countries operate a postcode system. Therefore please make sure the postcode is on the item.
2. For European destinations the postcode usually goes to the left of the town e.g. 04103 LEIPZIG, 11780 ATHENS
3. Always write the town and country in capital letters with the full country name appearing last in the address. Do not abbreviate as this can cause confusion e.g. items addressed to Kingston WI may end up in London W1 rather than the West Indies

Please see **Appendix C** for a full listing of countries and correct addressing examples.

## 3.3 Customs declaration

If you are sending a package to a destination outside the European Union you will probably need to add a customs label to the item.

For items with a value up to and including £270 you must attach a completed and signed CN22 label as near as possible to the top left hand corner on the front of the item, without obscuring the address.

For items with a value over £270 you must attach the top part of the CN22 and a CN23 form in a plastic wallet.

In both cases you will need to sign to certify the item does not contain any dangerous articles prohibited by postal regulations. Please ensure that your item has a CN22 affixed and that you have written the name and address of the person who signed the CN22 on the front of the package.

If you require the CN22 and CN23 customs labels please contact your Whistl Account Manager.

## 3.4 Presentation requirements

- All international items must be presented in an agreed consumable
- International items do not need to be separated by format or country destination
- Items must be clearly labelled using the correct AllSort tray label for international items

# 7.0 Forecasting

The customer must provide Whistl Customer Services with a 7 day and 24 hour forecast of their mailing. The forecast will include anticipated volume of mailing items and must provide details of the format and destination of mailing items expected to be handed over on each of the next 7 working days and the day prior to collection.

# 8.0 Collection Process

## 8.1 Collection times

Standard collection times will be set up prior to the customer's first collection and will be considered fixed from this point. However, if mutually agreeable to both the customer and Whistl Customer Services, these collection times are flexible.

## 8.2 Collection time change process

The aim of this process is to ensure requests for new or changes to existing collection times are managed in a controlled way. Whistl Customer Services will coordinate requests and notification of changes to collection times.

Any requests to change collection times must be made by e-mail to Whistl Customer Services and may require at least 14 working days for changes to be processed. Whistl Customer Services will confirm by e-mail, subject to capacity and capability, whether the change of collection time is acceptable.

Although Whistl will endeavour to meet the customer's requirements, this may not be possible in every instance. The final decision regarding the allocation of collection times rests with Whistl.

## 8.3 Customer Health and Safety procedures

Whistl will require all drivers to wear safety shoes, high visibility jackets and comply with all customer site traffic rules whilst on customer premises. All drivers should only have access to those areas directly related to the handover of mailing items unless previously agreed with Whistl Operations.

## 8.4 Unloading and handover at customer premises

- Separate mailings must be unloaded into separate containers which will facilitate the revenue protection checks against each mailing
- Customers provided with Whistl containers are responsible for loading and unloading the containers when and where directed by the Whistl driver
- All mailings handed over to a Whistl driver must be accompanied by a collection receipt.
- At handover, the Whistl employee will sign, time and date both copies of the collection receipt. Whistl and the customer's driver will each retain one copy of the collection receipt

## 8.5 Contingency

In the event of customer premises being inaccessible for any reason, the customer must notify Whistl Customer Services of any alternative arrangements and any subsequent change to normal practice at the earliest opportunity.

## 8.6 Non-machineable or non-routable mail

Non-machineable or non-routable mail includes mail for addresses outside the UK, for BFPO addresses, without a full address, or does not comply with, or is not presented in accordance with the specification outlined in the PremierSort Customer Guide. Mail classified as non-machineable or non-routable will be defaulted to Whistl AllSort wherever possible if Whistl so elects. In this case the customer shall pay the current Whistl AllSort rates and handling charge.

If Whistl cannot, or elects not to, process the non-machineable mail, then the items will be returned to the customer at such time as Whistl may elect.

This is likely to be at the same time as a future collection from the customer.
