SIMPLE, FAST AND FABULOUS

**Whistl have been the backbone to our business as we continue to grow internationally and their advice on entering new countries has proven to be invaluable.**

**Katie Wheeler - Chairwoman**

“We were having problems with our previous mail delivery provide with parcels not arriving and prices rocketing for a seemingly worse service.

The team at Whistl were very competitive in pricing, and most of all their hands on tech support make it easy for companies to install without the need for an IT whizz. It integrates seamlessly with Linnworks, which connects to our Shopify stores making order processing quick and efficient.

Our international complaints have dropped by nearly 40%.”
