

## Whistl help Leicester College stay ahead of schedule whilst also saving costs

Leicester College sent over 20,000 enrolment letters in 2020 through Whistl's **Hybrid Mail** portal.

With the elimination of in house printing **cost savings** were made.

The letters were sent two weeks **ahead of schedule** by standard mail versus 1st class mail resulting in further savings.

*Leicester College also benefited from **time savings**.  
Staff spent less time printing, folding and inserting letters.*

*Hybrid Mail also **improved accuracy** as enclosures were not omitted.*

*Most importantly Hybrid Mail **allowed staff to work from home**  
and still send out important student correspondence during  
the pandemic and moving forwards.*
