

# Secret Shirt Co

## Whistl have been brilliant since we started working together

“Secret Shirt Co is a business for football fans”, the owners of the company explain. “You go to the website, select a size and place an order. We then send out a completely random football shirt from across the world, from any level and from any league. We started our business in November 2020 and since then we have sold close to 50,000 shirts and accumulated close to 300,000 followers across Instagram and Twitter.”

Whistl have been brilliant since we started working together in Spring 2021. They have **fulfilled our needs** and the team we have been working with have been amazing with us.

When we first started we were complete novices with using couriers, the team at Whistl were **extremely patient** with us and even travelled up to our house to talk us through the way the system worked. This kind of customer support really is rare and was extremely appreciated.

We also have to give our Whistl Account Manager a special mention and thank you, since he contacted us about joining Whistl in January, he has **gone above and beyond** to help and support us. He is a credit to Whistl and the company are lucky to have him.
