

grüum.

Whistl send decicated lorries for grüum goodies

grüum is a young British business that was created by four friends from Manchester.

They've spent years designing and perfecting the grüum range. Their products offer clean skincare, haircare and shaving solutions for their customers and the planet.

“

Whistl are sending in lorries to collect all those grüum goodies.

Quite literally truckloads winging their way to our fabulous customers.

Always, top work from the team keeping those orders rolling out the door.

”

Andy Shaw
Co-founder at grüum
