

### Attention to detail and consistency of care

The Sarah Raven brand was first established in 1999 with a seed list. Now, an online gardening retailer, providing high quality products and a comprehensive range of seeds, seedlings, plants, and gardening and floristry products.

Whistl has been working with Sarah Raven since 2022, starting initially at their fulfilment site in Devon. Since then Sarah Raven have moved their fulfilment to Spalding, Lincolnshire where their own inhouse nursery site is now based.

Whistl now handles 100% of Sarah Raven's product despatches, following an initial period with a small proportion of product orders.

**We have a great experience with our Account Manager at Whistl. The attention to detail and customer service we receive from them is excellent. We have also found that everyone we deal with at Whistl provides consistent care and support.**
