Premier

2 or 3 day service for pre-sorted mail

The service

Premier provides a 2 or 3 day postal service to businesses throughout the UK.

We collect your pre-sorted business mail and process it to Royal Mail specifications at our distribution centres. Your mail is then transferred to Royal Mail's centres where it is integrated with their UK postal network. You have a range of services to choose from.

Premier 70 – this enables you to send letter-sized mail correctly addressed using either an optical character recognition font (OCR) or addressed with a customer bar code (CBC).

Minimum mailing 4,000 items sorted to approximately 70 UK selections.

Premier 1400 – this enables you to send a wide range of mail including irregular and larger sized items. Minimum mailing 4,000 letters in a single mailing sorted to approximately 1400 UK selections.

Who it suits

If you send a high volume of mail you can cut costs and benefit from more flexibility with our 2 or 3 day Premier service.

Premier is based on a simple principle – the more sorting you do, the lower your costs will be. That's because by organising your mail to meet our pre-sorted requirements you save us sorting time, which means we can offer you greater cost-savings in return.

How you benefit

Using Whistl means you benefit from all the advanced technological innovations used by our parent company Post NL and the sophisticated delivery network of Whistl's nationwide operations.

- *Later, more convenient pick-up times*
- *Competitive, flexible pricing structure*
- *Innovations that improve efficiency and security*
- *Secure single-integrated delivery network*
- *100% UK coverage*
- *Added security with tracking and proof of delivery to Royal Mail*
- *Dedicated customer service*

Customer service

As a Whistl customer, you will receive the full support of our dedicated customer service team who are on hand to respond to your requests and resolve any queries you may have.
